

**WITEX**

**PVC Woodwork**

**ALUMINIUM MANUFACTURER**

**WITOLD ZIMOWSKI**

We would like to present our company to you and to encourage you to cooperation with us.

Our company specializes in **ALUMINIUM** production as well as PVC woodworks. Our offer includes systems reach expectations of our customers. We are on the market since 1996, we are still dynamically developing, and taking new challenges, caring about design, quality and our customers' satisfaction. We cooperate with the best windows and doors suppliers : **ALUPROF, YAWAL, ALIPLAST** and **DOBROPLAST EKO-OKNA**. We guarantee the highest quality of offered products, wide range of colours, qualified technical advice, and most of all, very favourable conditions for companies and developers. We have a long term experience. We encourage you to cooperation and to sending us pricing requests to an e-mail [witex180@wp.pl](mailto:witex180@wp.pl) We have in our offer: shop windows, window dressings, winter gardens, windows, doors, exterior shades.

Basic information about the systems on which our production are based:

#### **Windows-doors woodwork ALUMINIUM**

- our production is based on the following systems:

**YAWAL,ALUPROF,ALIPLAST.**

Aluminium systems can be devided into:

-One chamber profiles –for interior design, such as: windows, doors, partitions, vestibules, manual and automatic sliding doors.

- Three chamber profiles –for exterior design, such as: windows, doors, shop windows, high thermal and acoustic isolation vestibules

-Facade profiles

Prop and lintel constructions systems enable the creation of spatial constructions with glass roofing. The system gives many arrangement possibilities, from curtain walls to large-size elevations of such buildings as halls, banks etc. In addition, the result can be improved with flat glass surfaces, without visible elements, of a structure typ.

-Winter garden- spatial construction for garden spaces

## **WINDOW-DOOR PVC WOODWORKS**

System division: 5-chamber, 6-chamber, 7-chamber, 8-chamber **ALUPLAST**- most popular window-door system, produced by a German company. This system conforms to all modern construction requirements. It combines high-tech with comfort and low prices.

### **Outdoor shades**

They are produced in the best ST system. This system type gives us the most simple solutions, with regards to technology. Rich colour palette. Shades protect from the sun-overheating, and from temperature loss in winter. It also reduces noise and protects from break-in. Nice design adds to the modern look. Lowering and raising can be done manually and automatically.

## **OUR OFFER IS FOR INVESTORS, DEVELOPERS, and SALESMEN**
